AWARITSE NIGERIA LIMITED

AWARITSE IT DEPARTMENT

WDR CODE:	PJS1/016/04/2021	TIME SPENT:		VESSEL:	PRINCE JASON1
DATE:	6th - 27TH APRIL	21 DAYS		LOCATION:	MOBIL PORT, ONNE PORTHARCOURT NIG

ITEM	ORDER	REMARK
	PROJECT: INSTALLATION OF PRINCE JASON 1 INTERNET, NETWORKING AND SECURITY	

SOLUTION: Comprehensive deliver and deployment of IT internet, networking and CCTV equipment onboard Prince Jason1, servicing Mobil Nig. The project included onboarding of 50+ vessel staff into Entra ID, provisioning a VMware ESXi host with multiple Windows Server 2016 instances, enabling iLO management, configuring Veam backup, and deploying computers for vessel senior officers and engineers, Cisco accees point, a Hikvision CCTV solution (24 IP cameras across 32-channel and 64-channel NVRs, integrated with iVMS for PC and cloud remote viewing). The solution for CCTV recording capacity is 90 days internal SATA, configured via Cisco switching with SADP tools, installation of primary Intellian Vsat internet and Sailor redundant internet systems (Intellian Dome and Sailor Dome) with Teams phone for reliable onshore/offshore communications. The project was delivered in 3 weeks and documented in official Awaritse IT reports.

STATUS: All IT EQUIPMENTS ONBOARD ARE INSTALLED, CONFIGURED, COMISSIONED AND WORKING FINE.

RECOMMENDATION: Regular maintenance and system health checks should be scheduled to ensure continuous performance of the installed IT, networking, and CCTV infrastructure onboard Prince Jason1
