AWARITSE NIGERIA LIMITED

AWARITSE IT DEPARTMENT

WDR CODE:	PJ1/001/04/2025	TIME SPENT:		VESSEL:	PRINCE JAMESON1
DATE:	3RD - 6TH APRIL	3 DAYS		LOCATION:	MOBIL PORT ONNE PORTHARCOURT NIG

ITEM	ORDER	REMARK
1	**PROJECT: INSTALLATION OF PRINCE JAMESON 1 INTERNE, NETWORKING AND SECURITY**	
2	**SOLUTION:** I led a team of 5 engineers to deliver a comprehensive IT upgrade for an offshore vessel at **Awaritse Nigeria. The project included onboarding 50+ vessel staff into Entra ID, provisioning a VMware ESXi host with multiple Windows Server 2016 instances, enabling iLO management, configuring Veam backup, and deploying a Hikvision CCTV solution (24 IP cameras across 32-channel and 64-channel NVRs, integrated with iVMS for PC and cloud remote viewing). The solution extended CCTV recording capacity from 30 to 90 days, configured via Cisco switching with SADP tools, and included installation of redundant internet systems (Intellian Dome and Sailor) with Teams phone for reliable onshore/offshore communications. The project was delivered in 3 weeks and documented in official Awaritse IT reports.**	WORK COMPLETED WORK COMPLETED
3		
	STATUS: INTELIAN INTERNET IS NOW ACTIVATED AND WORKING FINE.	
4	**RECOMMENDATION:** NONE
